NARRATIVE/SUMMARY:

Narrative/Summary below has been copied as received from complainant.

On June 17, 2025, I attempted to file a real time faculty threat report through the CSUN Police Department's online portal. The system failed. Officer Taisyn Crutchfield called me directly, acknowledged the failure, and heard my disclosure of psychiatric danger as an ADA-protected, NIH-funded whistleblower. She filed no report, initiated no protective response, and failed to notify command staff. This constitutes: Failure to document a Clery-reportable threat Abandonment of duty to a visibly impaired faculty member in medical crisis Breach of POST peace officer standards and Title II ADA responsibilities
